

## ACADEMICS

The degrees is based on a modular structure and their academic requirements are spelt out in respect of the number of courses rather than the number of years. All these programmes are structured in a way, such that, a student will be able to finish a programme in eight semesters. The flexibility of the Institute allows a student to do her/his programme at a faster pace and finish it earlier than 8 semesters or at a slower pace to finish it later than 8 semesters.
